DETAILED ACTION

Claim Objections

1. Claim 20 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim 19 in which claim 20 partially depends upon. See MPEP § 608.01(n).

2. Claims 1-20 are objected to because of the following informalities: in claim 1, line 9, the term "suppress" should be "suppresses" for correct grammar usage; where claims 2-20 are objected for depending on the objected claim 1. Appropriate correction is required.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter: none of the prior art of record teaches the preamplifier having the amplifier section which is coupled to the input of the preamplifier having the frequency-gain transfer function which suppresses low frequencies in a stop band relative to higher frequencies in a pass band, wherein the preamplifier is configured to provide a common-mode differential output signal in the stop band and a differential-mode differential output signal in the pass band so that its output is an anti-aliasing filtered signal.

Conclusion

4. Telephone calls were made to the Applicant on 07/12/10 and 07/15/10 in an attempt to correct the objections discussed above; however, such phone calls were unsuccessful.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kimball et al (Patent 6,661,217) discloses, in part, an amplifier circuit which includes a common mode and differential mode input filter where ratio setting is controlled to maximize common mode attenuation.

Callicotte et al (Patent 6,573,785) discloses an amplifier with common mode feedback circuit.

Tang (Patent 6,275,109) discloses an integrated circuit low-noise microphone preamplifier.

6. This application is in condition for allowance except for the following formal matters:

The objections to the claims as discussed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
